PRESIDIO[®]

ULTRAVIEW[®] SERIES

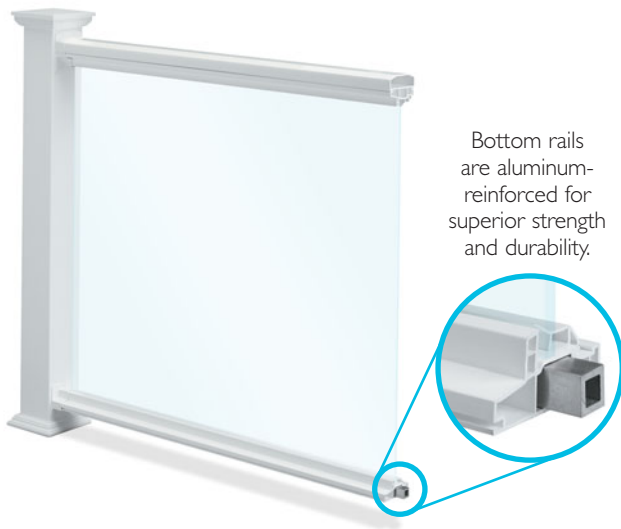

Vinyl Railing Systems by Westech

Engineered to stand out, designed to blend in.

Specifically engineered to be the perfect combination of beauty and brawn, PRESIDIO® Vinyl Railing Systems are among the most innovative railing products available.

The Ultraview Series is a harmonious blend of technology, innovation and nature, which provides an unobstructed view of your surroundings. Incorporating Westech's proven, state-of-

the-art window technology, each pre-packaged kit contains all the railing and bracket components necessary to create attractive railing sections that will never lose their aesthetic appeal. This system will add value, look great and last a lifetime. What more could you ask for? PRESIDIO's Ultraview Series—for those with a clear vision.

Bottom rails are aluminum-reinforced for superior strength and durability.

NOTE: Railing kits do not include posts, post caps or tempered glass, which can be purchased separately.
